

TABLE 1	
Summary of the results of the 1990-1991 survey of the health status of the population of the Republic of Serbia	
1. General characteristics of the population	
Total population	10,000,000
Male	5,000,000
Female	5,000,000
Age group 0-14	1,500,000
Age group 15-64	6,000,000
Age group 65+	2,500,000
Urban population	7,000,000
Rural population	3,000,000
2. Health status of the population	
Prevalence of chronic diseases	15%
Prevalence of acute diseases	5%
Prevalence of mental disorders	2%
Prevalence of physical disabilities	1%
Prevalence of mental disabilities	0.5%
Prevalence of physical and mental disabilities	0.5%
3. Health status of the population by sex and age group	
Male	
Female	
Age group 0-14	
Age group 15-64	
Age group 65+	
Urban population	
Rural population	
4. Health status of the population by region	
Belgrade	
Subotica	
Novi Sad	
Other regions	

Abstract of Disclosure

A system and method are provided that remotely grants limited access and permits use of resident software options in accordance with terms consistent with an access grant. The invention includes receiving an access request from a user to access a software option resident in memory of a device, determining whether to grant access in response to the request, and generating an access grant in response to a qualified access request that is transmitted from a centralized facility to a remote device to automatically enable access to the option.
